28.07.2015	release 2.15
16.12.2015	bug fix release 2.15.2
2016	??? ... looks like dev team changed? No other information available
2017	??? ... looks like development has stopped? Still no other information available

Ganeti Project

History

2007	born
2012-2015	active development (Team Munich)
28.07.2015	release 2.15
16.12.2015	bug fix release 2.15.2
2016	??? ... looks like dev team changed?
	No other information available
2017	??? ... looks like development has stopped?
	Still no other information available
	... and no ganeticon?

GiSA
IT. Mehr als Standard.

Ganeti Project

- ... aha one dev seems left, but very limited amount of time
- ... Google uses Ganeti internally (and heavily)
- ... no „known" alternatives/exit plans inside Google

Ganeti Project

- ... aha one dev seems left, but very limited amount of time
- ... Google uses Ganeti internally (and heavily)
- ... no „known" alternatives/exit plans inside Google

sounds strange

Ganeti Project

15.12.2017: mini Ganeticon Leipzig

- ... aha one dev seems left, but very limited amount of time
- ... Google uses Ganeti internally (and heavily)
- ... no „known" alternatives/exit plans inside Google

<p align="center">sounds strange</p>

Results:

- a fork is the only option
- python-2.7 EOL 2020
- Haskell may be good ... or bad sometimes
  - debugging, tracing, profiling
  - low learning curve
  - „Worse is Better"???
- Ubuntu is used wild, but 16.04 package is broken

Ganeti Project
Activities in 2018

29.1.2018 release 2.16_rc2

10.3.2018 talk @CLT

- showing others, that Ganeti is cool
  → not expecting much ...

Ganeti Project
Activities in 2018

29.1.2018 release 2.16_rc2

10.3.2018 talk @CLT

- showing others, that Ganeti is cool
  $\rightarrow$ not expecting much ...
- but surprise: many already know that Ganeti is cool
  $\rightarrow$ They just want to keep using it!

- Is the Community organized? Not really. Ansgar and I tried, but ...
- Who worked in 2018? Morg, Apollon, grnet, Iusitn, ...

Ganeti Community

Future = Community

- 2.16 is the last release by Google
- Who is the Community? That's we!
- Is the Community organized? Not really. Ansgar and I tried, but ...
- Who worked in 2018? Morg, Apollon, grnet, Iusitn, ...
- What is needed?

  a name Google ~~holds~~ releases the rights on the Name/Logo

  a home for development and project (git, website, docs, ...)
  - development forces
  - better organisation and coordination
  - helping hands / bug squashers (github, Debian, Ubuntu)

  users keep them happy

GiSA

Conclusion
what we have

- Ganeti does the right thing
- many users confirmed this independently
- good Debian integration
- users, that don't give up easy

Conclusion
final Question(s)

Q1: What is the status of the Ganeti project / community?

Conclusion
final Question(s)

Q1: What is the status of the Ganeti project / community?

That's what we need to discuss today!

Conclusion
final Question(s)

Q1: What is the status of the Ganeti project / community?

That's what we need to discuss today!

Q2: from FROSCON: When will be Tuesday?

GISA

Conclusion
final Question(s)

Q1: What is the status of the Ganeti project / community?
That's what we need to discuss today!

Q2: from FROSCON: When will be Tuesday?
Today! Let's see, if it is right one?

THANKS
